EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Brian C. Kunzler on 25 & 26 September 2007.

The application has been amended as follows:

In the Claims:

In claim 6, line 9, before the term "silver", the term --**chelated**-- has been **added**.

In claim 14, last line (line 7), after the term "solution", the limitation --**comprising about 0.01-0.03% chelated silver ion, about 0.005-0.015% EDTA, about 0.005-0.015% sodium polypectate, and about 5.5-11.5% glycerine**-- has been added.

Claims 1-5 and 9-13 have been cancelled.

Allowable Subject Matter

Claims 6-8 and 14-20 are allowed.

The following is an examiner's statement of reasons for allowance:

The primary reasons for allowance are that the prior art does not disclose nor fairly suggest or teach a liquid antiseptic and cleanser comprising a combination of the instantly claimed components (*i.e.*, surfactant, glycerine, chelated silver ion, EDTA, etc.) in the specific amounts/ranges instantly recited. The prior art further fails to disclose or teach a method for preparing a liquid antiseptic comprising the instantly claimed process steps, which yield a chelated silver solution, nor does the prior art disclose or teach a method of preparing as claimed having the specific amounts/ranges of chelated silver ion, EDTA, sodium polypectate and glycerine.

The instant invention demonstrates an improvement over prior art formulations in that it provides for long-term stability and extended antimicrobial effectiveness, due in part by the strong chelation bonding of silver ions.

In a telephonic interview held on 09/25/07 and 09/26/07 between Applicant's representative (Brian C. Kunzler) and the Examiner of record (H. Sheikh), proposed suggestions were made by the Examiner, which would place the application in condition for allowance. The Examiner proposed the following: (1) To incorporate the term "chelated" before the term 'silver ion' in independent claim 6, line 9 (to recite chelated silver ion); (2) To incorporate the percentage amounts of chelated silver ion, EDTA, sodium polypectate and glycerine from independent claim 6 into independent method claim 14; and (3) To cancel claims 1-5 and 9-13, which Examiner indicated as being unpatentable. Applicant's representative agreed and accepted the proposed claim amendments made by the Examiner, thus making the application in condition for allowance. Hence, in view of the lack of teachings of the prior art of record and the improvements instantly demonstrated herein, the instant application is rendered non-obvious and *patentable* over the cited art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
